"A Flying Cloud"
by Faith
Coral Academy of Science

Have you ever looked up in the sky?
You will see me floating by.

I see all types of people below me.
I see where they go, as if I were below.
I glow in the night to show the way,
but in the morning I show a fluffy white

I feel happiness in the air, as happy as me!
I feel glee when I feel me.

I smell fresh rain drops but you smell
gray because of me. In there it is blue.
I smell the earth smells of dew.

I am a fast cloud floating in the air.
Wave at me and I will say hi.
